

# BHS MORNING DROP-OFF

The **Red zone** is comprised of the intersection at the corner of Greenough, Tappan, and Sumner, as well as anywhere on Cypress St. **At no time should passengers be discharged in this area.** Cars should always pull through this area to get to the green drop off zones. Stopping to discharge passengers within these areas subjects you to ticketing.

The **Green zone** is the safe drop off area. Cars must pull fully into the green zones and discharge passengers on the curb side.
